ANY OTHER BUSINESS

There were two items under AOB, the first was from Angela Parton and concerned 'sale of land' at the 'soon to close' MOD land – it was reported by Angela Parton that during excavations an unusual amount of water was found to be present in the sub structure- this appeared not to be associated with drainage but more a sub surface flow of water.

ANY OTHER BUSINESS

The honorary Secretary responded with an insight as to research that he had entered into as to a licence being obtained by the occupants of a very old property 'pre The Grange' from the Duke of Northumberland as to the supply of water for various purposes. This water was a 'cut' from the Crane River to the large mansion like houses now within the area of the MOD [see map]

Right of map 'blue' is a flow – additionally another flow or 'cut' is indicated via "track of stream" which fed a pond that was no longer in evidence along today's Forest Road but maps show a pond and an exit flow towards what is now noted as a 'Valve House' – this flow, apart from feeding Hanworth Rectory eventually joins Feltham Brook near the roundabout of Feltham Brook Way.

Further research is required!

ANY OTHER BUSINESS

One other AOB was provided by Mike Parsons who enlightened members as to one of the largest craft of the air Blackburn Beverly that had its initial production history at Feltham. Mike further spoke of the current 'home' of the last surviving 'kite' and that it was possible to visit the site.
